## SOCIAL SECURITY FOR LANDMINE SURVIVOR

### Six-Month Report

January – June 2009

### I. Program Background

The Social Security for Landmine Survivor is one of the rural development programs support landmine accident and victim. The project was pilot since June 2008 according to the good collaboration and net work of ICCO with the EO Company of broadcasting. The TV crew visiting Cambodia in August 2007 and capture a few landmine area in suburb of Phnom Penh living area of survivor and went to Battambang where use to be an combat area during the civil war and also visiting the mine area. The outcome from the TV activities the EO broadcasting program decides to provide the fund through ICCO to NCDP. The aim to direct support and one off program according to the request submit by NCDP.

In 2008 was the starting period with research and identify clearly target area and target group. In 2009 NCDP management team decide to select Battambang and Siem Reab as direct implementing activities and Pailin, Banteay Meanchey, and Stueng Treng province as indirect activities using the existing NGOs and Ministry Social Affair staff to run slightly activities.

The report period from January to June 2009 only summary activities accordingly objective aims.

### II. The objective Aim of implementation:

- 1. Emergency:** In collaboration CMAC and Cambodia Red Cross to cooperate on Mine Risk Education at the remote area which most of the landmine effective to community member. The other hand support the hospital or any emergency action to those who immediately accident.

2. **Counseling:** After the injury and became persons with disability, many of them lack of confident and hopeless. Many of people accident by landmine do not want to stay a life and really want to kill them selves. One of the other difficulties is the discrimination from neighboring people and community, this reason very pressure to the family and the children as well so that we found out some was move the house and divorce. The SSLS is the project which meeting directly and sharing experience of those having the same case and provide the lesson learn to make sure that everyone is a human. The project conducts a counseling session to make sure the survivor confident enough to live in their community.
3. **Housing :** As many of them are very poor, the reason of accident by landmine because they also want to earn money for their living, one of the most difficulty those people have no house before and after the accident by land mind. Many of them living under threaten from the climate and environment, the house without roof without strong support some time collapse and some time easy to welcome decease. The project aim to research properly and provide the housing equipment or construction.
4. **Create business group for increase the standard living:** for earning and overcome the situation after the accident, the landmine survivor need to provide enough assistive divide such as wheelchair and crutches, beside that they need to build accessibility environment house to make sure their disability not an obstacle of participation and also create a small business which they should earn enough to living.

### **III. Achievement**

#### **A/ staffing:**

Three staff were recruited to implement the project in three main province Battambang, Siem Reab and Stueng Treng.

Among the three staff one of them working in Battambang are working directly in Battambang and in directly to coordinate also Pailin and Bantteay Meanchey provinces.

The two provinces Battambang and Siem Reab have been also using 20 people volunteer to help and leading the action.

NCDP/SSLS is consider one off project and provide direct activities to landmine survisor as commitment by EO and NCDP since the beginning of the program started. So that NCDP taking care on sustainability staff and it's own human resources in the future. By this reason NCDP use the central Management to lead the direction instead of recruit higher responsible person.

#### **B/progress activities:**

##### **Battambang, Pailin and Bantteay Meanchey**

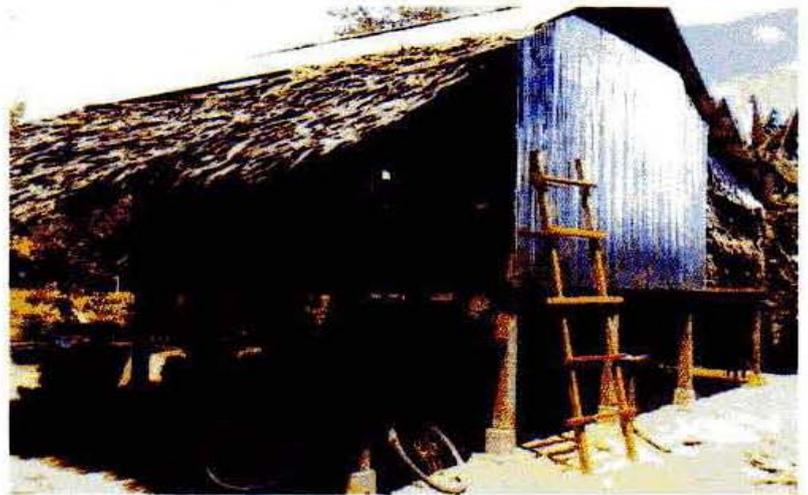

Total number of PWD was register 428 and 26 are landmine.

-Counseling: 340 times home visit was conduct to discuss the matter and preparing the individual work plan. During the period, 30 plan was prepare for the next 6 month action.

-Housing: 6 home of those landmine was build and in a very low cost way. They agree not to build a fancy home but look the same as other in the community. 6 home was build with a very clean and could allow 23people stay include children. This situation bring the hygienic and good health as well. Example such as one of the family with 5 children with disability receive an accessible toilet.

-Business: the differently 23 business was supported and they are running smoothly with a kick off action of small grant. From the business outcome 130 family member are survive and include the children of those survivor could go school.

-Networking meeting: Staff involve and regularly meeting with the commune such as Commune Chrey there are 324 People with Disability and 14 people are landmine.

## **Siem Reab**

Total number of People with Disability was register 328 with 20 landmine survivors. The projects running in 8 commune slar kram, there are 68 People with Disabileiy, Svay dongkum 27 People with Disability, Kok chak 23 People with Disability, Siem Reab 83 People with Disability, Trapang thom 107 People with Disability, Kandieng 105 People with Disability.

-Counseling: 320 times home visit with the support from volunteer and preparing action plan for implementation.

-Housing: 3 house were renovate and build which could benefit to 42 people who are living in include children.

-Business: differently 15 business were create and 12 of them are successful 3 was fall implementation. Among the 12 business could help to increase the food and school of children, totally the people who receive the benefit of 43.

Networking meeting: Staff attending regular monthly meeting with the province NGO net working and separately 18 times meeting discussion on the project development and cooperation with individual NGO in Siem Reab.

#### **IV. Concern area**

- Because of the project funding cycle finish in December 2009, The project implementation in a very short time so that NCDP management team has to make decision clearly how the life of the projects.
- The project recommendation, if any left balance should hand over to the community for continue running and find any solution of sustainability structure.
